

Join us on the
COAL CREEK TOUR

1-800-254-7944
www.eastcentralenergy.com

Expand your knowledge of the
process it takes to supply power
to your home or business.

The adventure begins at ECE headquarters in Braham, MN, where you board a bus to Bismarck, ND. Tour attendees can also be picked up at the ECE service center in Milaca, MN.

You will travel by excursion motor coach to Bismarck, ND. After arriving in North Dakota and checking into the hotel, it's off to Fort Abraham Lincoln State Park for a guided tour through the reconstructed Custer House, where you can relive what it was like for General Custer and his command in 1875.

We will conclude the evening with a relaxing dinner at a local restaurant in Mandan, ND.

The next day it's off to Coal Creek Station power plant. This is where coal is used to produce steam, which drives the process of generating electricity.

The plant has two generating units. Together, they produce nearly 1,100 megawatts of electricity for Great River Energy to transmit to East Central Energy and its 27 other member-owner cooperatives in Minnesota and Wisconsin.

The next stop is the Falkirk Mine, located adjacent to Coal Creek Station in Underwood, ND, to learn about the mining process and get an inside view of this massive facility constructed in 1975.

The final day is spent heading home. You have a chance to sit, rest your feet, play a couple games, and enjoy conversation with ECE hosts and other tour attendees.

Cost for the tour:

- \$190 for single occupancy
- \$260 for double occupancy

Price includes:

- Bus transportation
- Refreshments during bus ride
- Two nights lodging
- Historic tour
- Dinner on day one
- Lunch on tour day

The Falkirk Mine and Coal Creek Station tour are the main attraction, but here are some other sites you will see:

- Fort Abraham Lincoln State Park, Custer House
- Blue Flint Ethanol Plant
- Fort Mandan Visitor Center
- Stanton Station

Contact us at 1-800-254-7944 for tour dates.

Reservations are taken on a first-come, first-served basis. In the event of a cancellation, a full refund will be made up to two weeks before departure.
