

Invoice Group Billing

Invoice Group Billing

Another great benefit from your business partners at ECE.

Check out East Central Energy's Invoice Group Billing option which allows you to view all your ECE charges at a glance on one bill.

- ECE offers this service to members with multiple accounts.
- Invoice Group Billing combines all your accounts onto one statement; and you will still have all of the information such as meter readings, meter numbers, rates, kwh, and charges listed separately for each account.

To participate in invoice group billing

- Members choosing to pay via EasyPay (automatic bank draft), must have all accounts included in the invoice group set up for EasyPay. For your convenience, you can sign up for EasyPay on the Invoice Group Billing application.
- All accounts must be on the same billing cycle. For example, if on account is due on the 7th of the month, all accounts will be due on the 7th. Other due dates may be selected for a member's convenience; however, service provided must be within the same state (Minnesota or Wisconsin).

Yes, I would also like to make bill paying more convenient. Please sign me up for EasyPay. It's free, convenient, saves time, trouble and postage. EasyPay is an electronic funds transfer program, where your bank will automatically withdraw the amount of your monthly electric bills from your checking or savings account on the due date each month.

I authorize East Central Energy to instruct my financial institution to make payments to ECE for the accounts listed above. I understand that I control my payments, and if at any time I decide to discontinue this payment service, I will notify ECE.
