

EAST CENTRAL ENERGY

Rate Schedule SGS

Small General Service

Effective: September 2008 Revenue month
Energy bills due in October

Availability

Available to all members for single- or three-phase service where the principle use is non-residential and the metered monthly general service demand is less than 50 kW. If the member's general service kW demand is equal to or exceeds 50 kW for three consecutive months, the member's bill shall be calculated under the GS Rate Schedule until such a time that the member's kW demand is less than 50 kW for twelve (12) or more consecutive months. Service is subject to the rules and regulations of East Central Energy (ECE).

Character of service

Single-phase or three-phase, 60 hertz, at 120/240, 120/208, 240/480 volts, or other available secondary voltages.

Phase-out protection

All electric lines are subject to single phasing due to downed lines, recloser operations, dig-ins, equipment failure or accident. All members taking three-phase service should install single-phase or "phase-out" protection on main panels, motors or other equipment sensitive to single-phase outages.

Monthly rate

Facilities Charge:	Member Specific	
Basic Service Charge:		
Single Phase	\$25.00	
Three Phase	\$55.00	
Energy Charge:		
Summer Months (Jun-Aug)	First 2,500 KWH	10.60 cents/KWH
	Excess	9.60 cents/KWH
Other Months (Sept-May)	First 2,500 KWH	9.10 cents/KWH
	Excess	8.10 cents/KWH

Plus applicable sales tax

Minimum charge

The minimum monthly charge under the above rate shall be the facilities charge plus the basic service charge where the required transformer capacity is 50 KVA or less. For members requiring additional transformer capacity, the minimum monthly charge will be increased by \$0.75 for each additional KVA, or as calculated by ECE based on the investment and facilities necessary to provide the required capacity.

Taxes

The rates set forth are based on taxes as of January 1, 2008 and the amount of any increase in existing or new taxes on the generation, transmission, distribution or sale of electricity allocable to sales hereunder shall be added to the rates as appropriate to be paid by the member.

Power cost adjustment

The Power Cost Adjustment (PCA) will increase/decrease by 1/100¢ per kilowatt-hour for every corresponding 1/100¢ increase/decrease in ECE's total projected power cost per kilowatt-hour sold. Total projected power costs for this service will include all costs for power supply including applicable wholesale energy cost adjustments. This adjustment will be applied monthly on member bills.

Minimum connection period

If a member has been disconnected for a period of less than one year and wishes to have the service reconnected, the member shall pay the basic service charge and any applicable facilities charge for the period the service was disconnected, plus the connection fee for reconnection and also a service charge as set forth in ECE's Board Operating Policy.

Bill payment

Payment of the monthly bill shall be made by the due date designated on the bill. Payments made after the due date will be subject to late payment fees as established under ECE's Board Operating Policy.

Continuity of service

ECE will endeavor to provide continuous service but does not guarantee an uninterrupted and undisturbed supply of electric service. ECE will not be responsible for any loss or damage resulting from the interruption or disturbance of service for any cause other than gross negligence of ECE. ECE will not be liable for any loss of profits or other consequential damages resulting from the use of service or any interruption or disturbance of service.

I, Diane Zimmerman, Secretary-Treasurer of East Central Energy, do hereby certify that this Small General Service Rate was adopted by the Board of Directors on April 21, 2005, and revised January 25, 2008, and September 19, 2008.

Diane Zimmerman, Secretary-Treasurer
